DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, and 7-13 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The Examiner's rejections are overturned by the February 10, 2006 decision of the Board of Patent Appeals and Interferences. In the decision, the Board concurs with Applicant's position that the Examiner's combination of Sajoto in view of Whitney and Fukuda "...fail to teach or suggest a temperature sensing device that is disposed between the layer of insulation and the longitudinal body portion of the feedthrough device as required by claim 1 on appeal ". Further, the Board states that "the temperature sensor 54a of Fukuda is disclosed and shown as located in the conduit or introduction tube 11a..." (See decision, page 4). As a result, the Examiner bases his allowance on these points raised by the Board.
